

Double Cap Tubular Rivets

W_DC-RV-6MM-15MM-P

Although the cap size on the Rivets will increase, the post will remain 3mm!

Don't be scared to increase the cap size because you are worried that the post will be too long. The entire post will be absorbed by the cap no matter the size!

This is a staple for your crafting collection! You will need it for all hardware with a post.

3mm Hole Cutting Die

Double Cap Tubular Rivets Die Set

Search: DC-RV-DIE-4MM-G

Make sure you get the die in the same size as your hardware. If you get 8mm Rivets, you will need the 8mm Die set as well as the 3mm hole cutter! Place the cap into the top die and lay the post on the bottom die!
