

Mushroom Bag Feet

W_BGFT-MSH-RV-P

Our Mushroom Bag Feet are 12mm with a cap of 7mm. The post is roughly 2.5mm, we recommend using a 3mm hole cutter for these bag feet.

This is a staple for your crafting collection! You will need it for all hardware with a post.

3mm Hole Cutting Die

HC-DIE-GLD-3MM-G

Once you have cut your hole in your fabric, push the post of the bag foot and clip on the cap. Lay it faced down on your base die as shown and slowly but firmly press your Green Machine handle down to secure.
